On this Summer School, you will develop an understanding of how financial markets operate in the UK. It will also show you how to build your profile and personal brand as well as your English Language capability. Over six weeks you will learn the nature and workings of financial markets and financial institutions set in the context of British politics and economics. You will learn the building blocks of entrepreneurial companies and how they attract investment. The School also leads you through a structured intensive English language programme taught by professionals and professors from the best universities in the UK. It will help you create the powerful CV and give you the confidence in your English ability needed to place you ahead of the queue in securing that dream job in London's financial community.
